

Portable Gas Detectors You Can Count On

Multi Gas Detectors

Gas Clip Technologies' continued development and refinement of advanced low-power photometric infrared technology for LEL measurement helps make gas detection simpler and safer than ever.

Multi Gas Clip

2-month continuous run time

- Tests for hydrogen sulfide (H₂S), carbon monoxide (CO), oxygen (O₂) & combustible gases (LEL)
- Infrared LEL sensor is immune to sensor poisons (ex: H₂S & silicone)
- Works in oxygen deficient & oxygen enriched environments
- One-year calibration cycle
- Easy, one-button operation
- Fails to safe
- Full data logging, 1-second intervals
- High viewing angle alphanumeric LCD display
- Compatible with GCT External Pump, Multi Gas Clip Dock and Multi Gas Clip Dock Wall Mount

Multi Gas Clip Simple & Multi Gas Clip Simple Plus

No charging or routine calibration necessary

- Tests for hydrogen sulfide (H₂S), carbon monoxide (CO), oxygen (O₂) & combustible gases (LEL)
- Works in oxygen deficient & oxygen enriched environments
- LEL sensor is immune to sensor poisons (ex: H₂S & silicone)
- No need to change sensors or batteries.
- Fails to safe
- Full data logging, 1-second intervals
- One-button operation
- Large, easy-to-read, high viewing angle display
- Durable
- Compatible with GCT External Pump, MGC Simple Clip Dock and MGC Simple Clip Dock Wall Mount

2-year life

3-year life

Multi Gas Clip Pump

52-hr. continuous run time

Multi gas detector with internal sampling pump. Perfect for confined space entry monitoring.

- Tests for hydrogen sulfide (H₂S), carbon monoxide (CO), oxygen (O₂) & combustible gases (LEL)
- Infrared LEL sensor is immune to sensor poisons (ex: H₂S & silicone)
- Works in oxygen deficient & oxygen enriched environments
- One-year calibration cycle
- 75 ft. draw
- Ergonomic design
- Easy, one-button operation
- Fails to safe
- Full data logging, 1-second intervals
- Large, easy-to-read, high viewing angle display
- Compatible with GCT External Pump, MGC Pump Clip Dock and MGC Pump Clip Dock Wall Mount

Portable Gas Detectors You Can Count On

Single Gas Detectors

Single Gas Clip & Single Gas Clip Plus 2-year life

- Tests for hydrogen sulfide (H₂S), carbon monoxide (CO) or oxygen (O₂)
- Adjustable alarm set points
- Real-time gas reading capability
- Compatible with GCT External Pump, Single Gas Clip Dock and Single Gas Clip Dock Wall Mount
- Single Gas Clip Plus has same features as Single Gas Clip but includes Hibernation Mode. Detector's life clock can be stopped temporarily extending battery life up to 3 years
 - Available for hydrogen sulfide (H₂S) only

Compatible All-In-One Docking Stations

Bump test or calibrate four detectors at the same time with one stream of gas 1500+ bump tests with one 116L gas cylinder

Multi Gas Clip Dock

- Use the same docking station for calibration and bump testing
- Bump test four detectors in 1.5 minutes
- Perform firmware updates on detectors
- Customize detector features
- Built-in gas cylinder compartment with regulator & pressure gauge
- Removeable 4 GB USB memory stick
 - Located inside gas compartment
 - Logs bump tests, calibrations, gas readings & events
- Rechargeable lithium battery
 - Allows for complete portability
 - Charging cord included
- High pressure and ethernet specialty options available upon request

Single Gas Clip Dock Wall Mount

GCT Clip Docks (portable and wall mount) are available for all GCT detectors

Multi Gas Clip - MGC Simple/MGC Simple Plus - MGC Pump - Single Gas Clip/Single Gas Clip Plus

All Gas Clip products are sold through distributors worldwide.
