

Portable gas detectors you can count on

Multi Gas Detectors

Gas Clip Technologies' continued development and refinement of advanced low-power photometric infrared technology for LEL measurement helps make gas detection simpler and safer than ever.

NEW

Multi Gas Clip **Simple** & Multi Gas Clip **Simple Plus**

2 year life

3 year life

No charging ever. No calibration necessary.

Turn on the detector and have worry free assurance of detection of toxic and combustible gases 24/7 for years without charging or calibrating over and over again. No changing of sensors or batteries either. Extremely low maintenance. Features: works in oxygen deficient and oxygen enriched environments - LEL sensor is immune to sensor poisons such as H₂S & silicone - fails to safe - full data logging at one second intervals - one button operation - large, easy to read, high viewing angle display - durable - compatible with MGC Simple Clip Dock or MGC Simple Clip Dock Wall Mount.

Tests for H₂S, CO, O₂ & combustible gases (LEL)

Multi Gas Clip Infrared

Portable multi gas detector that can run continuously for 2 months without a recharge due to advanced infrared sensing technology. The Multi Gas Clip's infrared LEL sensor is immune to sensor poisoning and detects gas even in inert environments. Features: one year calibration cycle - easy one button operation - fails to safe to assure protection - full datalogging at one second intervals - high viewing angle alphanumeric LCD display - compatible with the simple-to-use Multi Gas Clip Dock or Multi Gas Clip Dock Wall Mount.

Tests for combustible gases (LEL), H₂S, CO and O₂

Also available in Pellistor and 2 gas versions, specs vary

Multi Gas Clip Pump Infrared

Compact multi gas detector with internal sampling pump that runs for up to 52 hours continuously on one charge due to low-power photometric technology. Perfect for confined space entry monitoring. Features: calibration once yearly - infrared LEL sensor that is immune to poisoning & doesn't require oxygen to detect gas - 75 ft. draw capability through secure stainless steel gas inlet - ergonomic design for optimum comfort - easy one button operation - fails to safe - compatible with MGC Pump Clip Dock or MGC Pump Clip Dock Wall Mount.

Tests for combustible gases (LEL), H₂S, CO and O₂

Also available in Pellistor and 2 gas versions, specs vary

Detectors, docking stations, and accessories sold through distributors worldwide.

Portable gas detectors you can count on

Single Gas Detectors

Single Gas Clip

Eliminate downtime with this ultra-reliable portable gas detector. The Single Gas Clip meets all needs with adjustable alarm set points & real-time gas reading capability. Each detector is quality tested to ensure day after day dependable performance. Compatible with the industry's easiest to use docking station the Single Gas Clip Dock or Single Gas Clip Dock Wall Mount.

Tests for H₂S, CO or O₂

Single Gas Clip Plus

When this durable detector is not in use, the life extending hibernate mode allows the detector's life clock to be stopped temporarily. There is no minimum hibernation time required in order to extend the detector's life, so every minute hibernated is a minute saved. It features all of the durable and dependable qualities of the Single Gas Clip. Compatible with Single Gas Clip Dock or Single Gas Clip Dock Wall Mount.

Tests for H₂S or CO

Compatible All-In-One Docking Stations

Gas Clip Technologies Clip Docks save time & gas by performing bump tests and calibrations on 4 detectors at once with 1 stream of gas. Snap detectors into the bays, push the Bump Test button, and detectors are ready to go in a minute or less. It's that easy! These simple to use docking stations each feature a built-in gas cylinder compartment with regulator & pressure gauge for quick & efficient operation. Removable 4 GB USB memory stick inside the gas compartment logs bump tests, calibrations, gas readings & events allowing your company to do its own detailed analysis anytime. GCT Clip Docks can be used to easily perform firmware updates & detector feature customizations. The rechargeable lithium battery allows for complete portability, dock charging cord is included. GCT Clip Docks are housed in rugged cases that go where you need them to go. GCT Clip Docks are available in a wall mount version that can be set on a surface or mounted in a convenient location.

Multi Gas Clip Dock

Single Gas Clip Dock Wall Mount

GCT Clip Docks, portable or wall mount, are available for:
Multi Gas Clip IR/Multi Gas Clip Pellistor - MGC Simple/MGC Simple Plus
MGC Pump IR/MGC Pump Pellistor - Single Gas Clip/Single Gas Clip Plus.
