

# MGC Accessories

The Multi Gas Clip (MGC) comes standard with the longest battery life of any portable multi gas detector. It provides day-in, day-out protection from atmospheric hazards-and its affordable. In addition to all the features built into the MGC, Gas Clip Technologies offers a wide range of accessories to meet your needs.

## MGC Dock

P/N: MGC-DOCK

Use the MGC Dock to simultaneously calibrate or bump test up to four units at a time. It can also be used to adjust user settings and download event logs and data logs. The MGC Dock comes with a long lasting battery to allow for testing equipment in the field and is housed in a portable, but rugged, Pelican case to protect it in the harshest environments.

## GCT IR Link

P/N: GCT-IR-Link

Connected to your computer by USB, the GCT IR Link communicates directly with the Multi Gas Clip (MGC) and MGC Dock to program special alarm set points and user options, as well as, to download event logs & data logs.

## Vehicle Charger

P/N: MGC-V-CHARGER1

For your workers on the go, we have the option of charging using the vehicle charger (12V only).

## Calibration Gas

P/N: GCT-Q-58 (58 liter)

P/N: GCT-Q-116 (116 liter)

When calibrating detectors manually, or with the MGC Dock, use NIST traceable gas. Gas Clip Technologies has a Standard Quad gas mixture (H<sub>2</sub>S/25 ppm, CO/100 ppm, O<sub>2</sub>/18% vol. and CH<sub>4</sub>/2.5% vol. - 50% LEL) available in 58 or 116 Liter cylinders.
